

**Jean Monnet PROJECT CHAIR ” THEORETICAL AND
EMPIRICAL KNOWLEDGE OF THE EUROPEAN UNION”
(EUTEC)**

101047511-EPP-1-2021-1-MD-EPPJMO

University of European Studies of Moldova

General Objectives of EUTECH

- ❖ deepening teaching, research and reflection of EU disciplines to Europeanise university programmes in line with new labour market requirements;
- ❖ promoting the European dimension and values in higher education of the Republic of Moldova;
- ❖ communication, sharing and increasing the visibility of the results of the action to the general public in encouraging dialogue between academia/ professional groups / civil society members;

Specific Objectives of EUTEC

❖ Developing two innovative programmes and ensuring the teaching of *two new European Studies courses*:

- (1) "Theoretical foundations of European integration and the identity of the European Union"
- (2) "Empirical analysis as a way of understanding European integration and the identity of the European Union"

Teaching and training

JMC-EUTEC aims to deepen the teaching of EU studies in the official curriculum of the **University of European Studies of Moldova**. It focuses on the possibilities of in-depth training from a didactic point of view for future specialists in the field of international relations in order to prepare them for their future professional life.

Our in-depth training offers provide an interdisciplinary approach to the disciplines of social sciences. Seminars are held in Romanian or Russian. Particular attention is paid to the perspective of (subject-oriented) didactics, considering the issue of studying and teaching "Europe" in various forms and subjects.

Research

JMC's EUTEC research activities are planned in accordance with teaching activities, and also focus on three areas at various academic levels (Bachelor's, Master's, doctoral and postdoctoral studies). We encourage, advise and mentor the younger generation of researchers and teachers in the field of EU studies, especially in the field of European integration. Students of all levels (especially doctoral students) and teachers can participate under the guidance, supervision and supervision of the JMC team. Special attention is paid to research on European integration.

Special events

Special events of JMC EUTEC - Conferences, Round Tables and Summer School are aimed at attracting local, regional and national, as well as international participants from the academic world and beyond, such as members of civil society organizations, politicians and other interested members of the public. We pay special attention to the involvement of schoolchildren (both active participants and spectators), who will need advanced knowledge and competencies to be able to shape the future of Europe.
